Good Roads Movement.

"At a called meeting of the Hardin Fiscal Court held Tuesday, the road interest was considered and the Brownlow bill before Congress appropriating \$20,000,000 to aid in the building of county roads at the rate of \$1,000 per mile was endorsed and the following resolutions were passed on the subject:

WHEREAS, a bill has been introduced in the House of Representatives by Congressman Brownlow of Tennessee, authorizing the Federal Government to appropriate money to aid in the building of county roads, therefore it is

Resolved that the Hardin County Fiscal Court heartily endorse the bill and urges our Representative, Hon. D. H. Smith, to support the same."—Elizabethtown News

The above bill is one that should be of particular interest to the people of the Big Sandy valley, and we sincerely hope that Congress will adopt the measure. It provides that the government shall pay half the cost of constructing permanent roads, the states or counties to pay the other half. Under its requirements the roads would be well located and constructed of material that would render them permanent and just as good in bad weather as any other time. There is nothing our mountain country needs as badly as good roads.

The Kentucky Exhibit Association proposes to be very liberal with the farmers in the matter of a display at the St. Louis Fair in 1904. It is the greatest opportunity ever offered Kentucky farmers. This is none too early to begin planning and preparing for products to be exhibited at the World's Fair. No section in the State can surpass Big Sandy in the quality and variety of agricultural products, and we should show the world what we can do. Specimens of the crop of 1903 must be preserved for the Fair. Provision will be made for the preservation of these products at the proper time. Decide what you will produce for exhibit and get ready.

News has been received of what appears to be the greatest find of gold since the discovery of the Klondike workings. The new bonanza is located on the Tanana river, 300 miles from Circle City, and in American territory. The pay streak is unusually large, and the dirt runs in some cases 25 cents to the pan.

Just Across the River
in West Virginia.

Congressman James A. Hughes and Hon. Z. T. Vinson, of Huntington, have sold a boundary of coal land in West Virginia at a handsome profit.

While flames enveloped his home on Big Creek, over near Hamlin, Sunday night Samuel Akers rushed into the blazing structure to save \$200 in cash that had been secreted in a closet of the house, was caught by the falling roof and perished in the flames. His aged mother, who stood by and saw the whole horrible affair, was only prevented by force from rushing into the flames and sharing the fate of her boy.

Full consideration of quality will show Snyder Bros. to be the cheapest place in this section to buy furniture.

Mr. Vaughan was seventy-six years old and had been an inmate of the home since its opening. His death was caused by paralysis of the heart. He was a member of the Fifty-first Kentucky Confederate Infantry, and his home was at Prestonsburg.—Courier Journal.

About 300 oil wells are now going down in different parts of Kentucky, and almost every day reveals some new territory. The drill is now at work in 50 different counties, and weekly new ones are being entered. The average number of strikes a month during the past few months has been 30, most of which were in the Knox County fields. From present indications Kentucky is fourth in the list of oil producing States but her real position in regard to oil production will be determined by the lasting quality of the wells.—Ex.

One night last week while Mr. Tom Burchett, was in Palatka, on business his feed and livery stable at Prestonsburg, caught fire about 9 p. m. and burned to the ground.
